

Kodak ScanMate i1120 Scanner vs. Fujitsu ScanSnap S510 Scanner

Kodak ScanMate i1120 Scanner

Fujitsu ScanSnap S510 Scanner

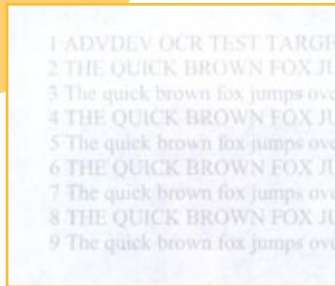

Top 6 Reasons to Select Kodak

- 1. Industry-standard TWAIN drivers included**
 - Provides an open architecture that allows you to install any TWAIN-based application
- 2. At the touch of a button, the exclusive Smart Touch feature allows you to customize and store up to nine different scanning operations**
 - Easily streamline your scanning process for varying document types
- 3. With Kodak's exclusive Perfect Page imaging, you get excellent readability of scanned images—even on problem documents**
 - See the compelling side-by-side image comparison on the back side
- 4. Proven throughput speed**
 - The **Kodak ScanMate i1120 Scanner** is 40% faster for 200 dpi color duplex!
- 5. All the output you need, plus electronic color dropout**
 - Single- and multi-page TIFF, JPEG, RTF and PDF file formats, plus searchable PDF
 - Color, black-and-white *and* grayscale
- 6. Bundled software provides a powerful solution for personal document management**
 - **Nuance ScanSoft PaperPort** Software allows you to efficiently scan and organize all kinds of documents

Top 6 Reasons NOT to Choose Fujitsu

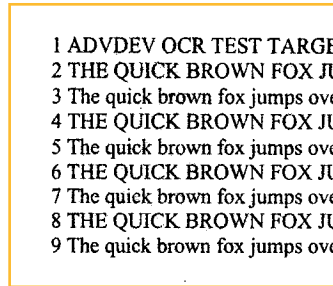

1. Comes with **ScanSnap** Manager, a proprietary driver that makes the **ScanSnap** S510 a closed system
 - No TWAIN drivers means the **ScanSnap** S510 cannot be driven by any TWAIN-based application
2. At the touch of a button, you can only make a PDF
 - No way to customize or store multiple scanning functions
3. Problem documents are a problem!

Original Document

Scanned* with **Fujitsu ScanSnap** S510 Scanner

Scanned* with **Kodak ScanMate** i1120 Scanner using Perfect Page imaging

* Settings: PDF output, black-and-white, 300 dpi ("normal" setting on **ScanSnap** S510)

4. Compare actual scanning throughput speed

Scanner	Measured Speed (200 dpi color duplex)
Kodak ScanMate i1120 Scanner	21 pages per minute**
Fujitsu ScanSnap S510 Scanner	15 pages per minute**

** Based on testing using a 2.4 GHz PC processor with 1 GB RAM installed

5. Limited output options
 - PDF and JPEG only—no TIFF, no RTF, no grayscale, no electronic color dropout
6. The bundled **ScanSnap** Organizer is a much less powerful personal document management application than **PaperPort**
 - **ScanSnap** Organizer is a proprietary application

Add it all up—if your business needs a high performing, flexible, easy-to-use office mate, there's really only one choice: Kodak.
